This communication includes forward-looking statements which relate to, among other things, our plans, objectives, goals, strategies, future operational performance and anticipated developments in markets in which operate and in which we may operate in the future. These forward-looking statements involve known and unknown risks and uncertainties, many of which are beyond our control and all of which are based on management's current beliefs and expectations about future events. Forward-looking statements are sometimes identified by the use of forward-looking terminology such as "believes", "expects", "may", "will", "could", "should", "intends", "estimates", "plans", "targets", or "anticipates" or the negative thereof, or other comparable terminology.

These forward-looking statements and other statements contained in this communication regarding matters that are not historical facts involve predictions and are based on the beliefs of our management, as well as the assumptions made by, and information currently available to, our management. Although we believe that the expectations reflected in such forward looking statements are reasonable at this time, we cannot assure you that such expectations will prove to be correct.

Given these uncertainties, you are cautioned not to place undue reliance on such forward-looking statements. Important factors that could cause actual results to differ materially from our expectations include, but are not limited to: our reliance on ADNOC to supply us with substantially all of the fuel products that we sell; an interruption in the supply of fuels to us by ADNOC; changes in the prices that we pay ADNOC for our fuels and to the prices that we are allowed to charge our retail customers in the UAE; failure to successfully implement our operating initiatives and growth plans, including our mixed-mode service offering, our convenience store optimisation initiatives, our cost savings initiatives, and our growth plans; competition in our markets; decrease in demand for the fuels we sell, including due to general economic conditions, improvements in fuel efficiency and increased consumer preference for alternative fuels; the dangers inherent in the storage and transportation of the products we sell; our reliance on information technology to manage our business; laws and regulations pertaining to environmental protection, operational safety, and product quality; the extent of our related party transactions with ADNOC and our reliance on ADNOC to operate our business; the introduction of VAT and other new taxes in the UAE; failure to successfully implement new policies, practices, systems and controls that we implemented in connection with or following our IPO; any inadequacy of our insurance to cover losses that we may suffer; general economic, financial and political conditions in Abu Dhabi and elsewhere in the UAE; instability and unrest in regions in which we operate; the introduction of new laws and regulations in Abu Dhabi and the UAE; and other risks and uncertainties detailed in our International Offering Memorandum dated 26 November 2017 relating to our initial public offering and the listing of our shares on the Abu Dhabi Securities Exchange, and from time to time in our other investor communic

Except as expressly required by law, we disclaim any intent or obligation to update or revise these forward-looking statements.

Fuel retail in Q1 2025

Record Q1 volumes: retail fuel demand growth momentum sustained

+5 new stations

UAE: **+5** (incl. Dubai: **+1**)

Contracted **15** more stations in KSA

under CAPEX-light DOCO* model, currently under development

+3% daily** volume in UAE/KSA

Retail: +5.3%, Commercial -2.2%

+2% total daily** volume

Retail: +3.7%, Commercial -1.2%

13 © ADNOC Distribution *Dealer Owned-Company Operated model, **Taking into account difference in number of days between Q1 2024 and Q1 2025

Accelerating smart growth on a dynamic KSA market

Double track strategy: maximize value with existing COCO*, expand fast with capital-light DOCO**

How capital-light DOCO** model works?

1. Targeting non-qualified stations

Highly fragmented market - 7,000 stations operated by multiple non-qualified players (c.70% of total market)

Operating under SAR0.09/liter gasoline margin

Evolving regulatory requirements create challenges for non-qualified players

2. Implementing rebranding and upgrade to comply with ADNOC Distribution standards

Station owner to invest (CAPEX) in renovating and re-branding existing stations...

...in compliance with ADNOC Distribution guidelines incl. branding, HSE, layout and technical standards (fuel systems...) 3. Operating new ADNOC Distribution branded station (DOCO**)

Station qualifies for gasoline margin increase of SAR6/liter (to SAR0.15/liter)

ADNOC Distribution operates the station and entitled to a pre-agreed share of incremental fuel retail margin and NFR revenue

Volume and NFR uplift supported by ADNOC Distribution branding and renovation

ADNOC

Non-fuel retail continues to grow faster than fuel in Q1 2025

+14% NFR gross profit

driven by growth in convenience stores, property management and car wash

+10% daily* non-fuel transactions

supported by higher # of fuel transactions, higher conversion from fuel to nonfuel, new offerings in convenience stores and car services

+21% daily* barista-prepared drinks

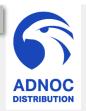

representing one of the highest-margin food and beverage categories

+20% convenience stores gross profit supported by conversion rate growth (c.+70 bps), bigger basket size (+1.3%) and higher margin (c.+360 bps)
