

Tyre suitability test

This test is needed in case you've received a fine on the road for sub-standard tyres. Once you've changed your tyres at any workshop, you will need to come to a Salama centre to obtain a 'tyre test'.

To get your tyre test, you'll need to do the following:

- Drive to any Salama centre
- You will not need vehicle inspection, so don't position yourself in the queue; You also don't need to go inside and get a ticket from the counter
- Simply park your car and go to the supervisor's office
- Once the test is done, please proceed to the cashier to get your tyre test certificate; You will need to pay AED 120
- Test has to be taken back to the Police to unblock your licence
